25X1A	* Comment. The information does not confirm previous observation made in St Poelten in May 1951, according to which elements of the 95 Gds Mtz Rifle Div had possibly moved from there to the Poellersheim	5th
25X1	training grounds. It is rather believed that the elements of the 95th Gds Mtz ifle Div, like the 13th Gds Mcz Div, were still at their poin mid-June 1951. On the basis of this assumption it is believed the of the 95th Gds Mtz Rifle Div, which were obsert in the Doellarsheim area in May and at the beginning of June 1951, both	th osts at the eved
	to the units permanently stationed at Doellersheim rather than to ele of this division staying there for summer training.
